RadiantGrid Technologies Adds SurCode for Dolby Digital and Dolby E

SurCode™ for Dolby® Digital and Dolby E OEM Module Available for CableLabs

Las Vegas, Nevada- April 20th, 2009 - Minnetonka Audio Software announces RadiantGrid as a new OEM partner for SurCode for Dolby Digital and SurCode for Dolby E.

The RadiantGrid™ Platform supports the encoding of multi-channel audio for VOD and IPTV formats, such as CableLabs 1.1 and 2.0, and can now offer customers Minnetonka Audio Software's industry-leading support for Dolby Digital Stereo and 5.1 decoding and encoding, in addition to Dolby E decoding.

"Using the SurCode API, we are able to provide the highest-quality Dolby Digital encoding within our grid-enabled transcoding platform, and meet the high compatibility bar of our cable and IPTV distributors," said Kirk Marple, President and Chief Software Architect, RadiantGrid Technologies.

"We are very happy to include RadiantGrid is an OEM partner," says Steve Clarke, Director of Channel and OEM Sales at Minnetonka Audio Software. "RadiantGrid customers will be able to encode and decode Dolby Digital directly, or ingest a Dolby E file and output Dolby Digital with all metadata."

RadiantGrid will be exhibiting on SL10105 at the NAB Show in Las Vegas from April 20-23, 2009 and will be available to demonstrate its CableLabs software and illustrate how it plays a key role for VOD and IPTV.
